

**UNIVERSITY OF CONNECTICUT
COOPERATIVE EXTENSION SYSTEM
PESTICIDE APPLICATOR RECERTIFICATION MEETING
SCHEDULE
2009-2010**

Many of the following meetings will be sponsored or co-sponsored by the Cooperative Extension System and will qualify for recertification credit. Every effort should be made to attend a meeting that corresponds to your certification category. In the event that this is not possible you should attend a general recertification meeting. All general recertification meetings will offer recertification credit to both private and commercial supervisory applicators. To register for a meeting, or if you have questions call, or e-mail the contact listed.

For all meetings listed as "General", pre-registration by telephone at least two days prior at the contact office is required. ****Programs with only 1 or 2 registrations will be cancelled. There are several meetings for which dates have not been confirmed, in this case call the contact person listed for details.

IT IS IMPORTANT TO KNOW THAT 1.) Credit will only be given for attendance at one "General" meeting. In other words you cannot attend two "General A" meetings or two "General B" meetings and get credit for both since the program content will be the same at each meeting. You may attend one General A and one General B for credit. 2.) **If your license expires on 1/31/2010, and you fail to send your credit slips and your recertification application and fee to DEP prior to 1/31/2010, you will have to begin again with the certification exam process.**
